THE FIRST-TEN PROTOCOL CARD

Vajgrt Labs - Education - Stage 10 protocol artefact - Updated Oct 21, 2026

The first ten live trades as one written experiment. Every panel is filled before trade #1; the card is not edited mid-block.

THE FUNDING PAGE (LESSON 2)

Certified figure: $_____ Tuition tranche moved: $_____ Account type: CASH
Options approval (spreads level only): _____ Inspection week done (fills reconciled, $0 traded): _____

THE SIZING CARD (LESSON 3)

Cap (1% of certified figure): $_____ Eligible structures at 1 contract: _____ R = $_____ Block floor (-3R): $_____ Expected block cost (your expectancy x 10 x R): $_____

ELIGIBLE SETUPS (PLAYBOOK PAGES WITH A VERDICT ONLY)

1. _____ 2. _____ Candidates stay on paper. One position at a time; size locked for all ten.

THE PER-TRADE CIRCUIT (EVERY TRADE, IN ORDER)

Plan card before the ticket - read-aloud guard done - one net-limit ticket worked from the mid - fill report reconciled the same day (fill vs mid, fees itemised) - exits by the written doors only - journal entry: three tags, result in $ and R, process grade - feelings filed separately. The next trade opens only after the previous one is closed, journaled and graded; after any loss, one full session out.

THE FOUR DOORS (PRICED IN YOUR DOLLARS)

DOOR 1, A BREACH (any BAD trade): pause; the weekly-review treatment is filed before the next trade; a second breach ends the block.

DOOR 2, -2R = $_____: pause for a full audit of the block's journal.

DOOR 3, -3R = $_____: the block ends. Paper for at least 20 compliant trades and a written block review; any new block is a fresh decision.

DOOR 4, LIFE: any Stage 0 line changes and the block ends at any score; the re-audit is the only way back.

AFTER TEN

The block review reads: process account, error account, friction line, trigger log - dollars last. Menu: a second block at the SAME size; return to paper with the block's named pattern; or stop. Sizing up is not on this menu.

Education only - not financial advice, and not tax advice. Stage 10's worked figures are the course's labeled example learner - a $25,000 certified figure from Stage 0, a $5,000 tuition tranche - on Stages 7-9's own structures (the 773/775 and 780/785 call debit verticals; the 765/760 put credit) at their printed fills, marked EXAMPLE on the page and on every graphic; its worked block's expectancy is Stage 9's sample log figure; the contract-fee example is Fidelity's published schedule (checked in Stage 2). Its tax statements are general information summarised from IRS

Publication 550, IRS Topic No. 409 and the IRS Instructions for Form 1099-B (irs.gov), checked Oct 15, 2026. Going live is optional by design; nothing here promises or implies profitability. Vajgrt Labs - Education.
